

## Kiel one step ahead

A few minutes before 20hrs on Sunday evening a German or a Spanish team will be bathing in champagne and celebrating the most prestigious club title in handball.

Until the very last moments the fans will be hoping their team will be the lucky one. Expectations are enormous, tension is high and the final whistle will be an unforgettable feeling of joy for either the Kiel or the Ciudad Real players.

The first match of the EHF Champions League Final showed everything that makes handball attractive: tremendous atmosphere, two teams scoring spectacular goals, dynamism, speed and power – everything but good defending...

The second leg promises no less than that. It will put on stage the highest quality handball you one can possibly imagine performed by the biggest stars on the courts of Europe.

There will be plenty of motivation on both sides. The 2008/09 Final will go down in handball history as the end of the fabulous international career of Stefan Lövgren. Other stars, Stefansson to name just one, will try to say goodbye to their clubs with a CL trophy.

Don't miss the club highlight of the season! Broadcast on 20 TV stations and online on ehfTV.com.
